

RoCKIn2015, the second and major competition event in the EU-funded robotics project RoCKIn, will be coming to Lisbon from 21-23 November.

The RoCKIn Competition 2015 joins 13 teams from 6 countries to compete and to benchmark their robots in domestic ( [RoCKIn@Home](#) ) and industrial ( [RoCKIn@Work](#) ) environments, showing the most recent progresses of their R&D.

The event is open free-of-charge to the public who will get to see state-of-the-art robots autonomously perform challenging tasks in realistic domestic and industrial environments.

The program also includes a Workshop on EU Robotics Clusters ( <http://rockinrobotchallenge.eu/rockin2015-workshop.php> ).
